

## Web site evaluation

Title of web site:

Author:

URL:

Date accessed:

What **kind** of resource is this (structured tutorial, supporting material, index, gateway)?

What **purpose** does it seem to have, in terms of students' learning needs?

How would you **use** it with students in practice? (e.g. what activities/assessment tasks could you structure around it?)

How would you **describe** it to students in one or two sentences (e.g. for an annotated bibliography)?

How **effective** do you find it as a learning resource?

How **usable** do you find it as an web site? You might comment on:

Navigability around site

Navigability within page(s)

Readability of text

Speed of download

Appropriate use of graphics

Appropriate use of interactive elements

Other features

Please write down your **reflections** on this activity
